

# Medicine

## Pathway Preparation Sheet 2017-2018

### Where does my path start?

You will complete an Associate of Science-Transfer (AS-T) Track 1 at Shoreline.

**Use the AS-T Track 1 Degree Planning Guide, with this sheet, to understand the requirements for graduation.**

The next step is to complete a Bachelor's degree at a four-year school, then apply to a Medical School.

### Medicine – What is it?

Physicians diagnose and treat illnesses and injuries. They examine patients, document medical histories, perform medical procedures, interpret tests, prescribe medications and advise patients how to prevent and manage disease. Many physicians practice family medicine, while others work in an area of specialization.

**Areas of study in Medicine:** Primary Care, Anesthesiology, Pediatrics, Geriatrics, Internal Medicine, Obstetrics and Gynecology, Psychiatry, Neurology, Oncology, Orthopedic Surgery, Radiology, Pharmacology, Cardiology, among many others.

### Where can I go for help?

### Where can I transfer?

The AS-T makes it possible for students to transfer to public and private colleges and universities in the U.S. with junior standing within a four-year Bachelor's degree program (please see the AS-T Track 1 Degree Planning Guide for a list of schools) Students can transfer to any college or university to complete their bachelor's degree before applying to a Medical School. Washington state institutions with medical schools are listed below.

Pacific Northwest University of Health Sciences\*  
 \*Osteopathic Medical School located in Yakima, Washington

University of Washington  
 Washington State University (Spokane)

### What can I do with a Doctoral Degree in Medicine?

During the fourth year of medical school students choose an area of practice, such as family medicine, or one of the many medical specialties. Some choose careers in research, teaching, writing, or public policy. The training, duties and salaries are different depending on the area of specialization.

**Potential employers include:** Hospitals, medical clinics, universities, pharmaceutical companies, medical equipment companies, the World Health Organization, government agencies, non-profit organizations and private practice. For more, please visit <http://www.shoreline.edu/counseling-center/career-counseling.aspx>.

**What courses should I take?\***

<p>General Education Requirements (20 Credits)</p>	<p><b>Required:</b> ENGL&amp; 101 (A); ENGL&amp; 102 (A), 230 (W,S) or CMST&amp; 101 (A); MATH&amp; 151* (A); One course in Multicultural Understanding</p>
<p>Humanities/Social Sciences (15 Credits)</p>	<p><b>Required:</b> One course each in Humanities and Social Sciences; a third course in either Humanities or Social Sciences</p>
<p>Pre-Major Requirements (29.5 Credits)</p>	<p><b>Required:</b> Science: CHEM 171/181 (F,W,S), 172/182 (W,S,U) 173/183 (F,S,U) Additional Math*: MATH&amp; 152 (A), MATH&amp; 163 (F,W,S) or MATH 211 (A) * Very few medical schools require MATH &amp;152 or &amp;163, but the AS degree requires &amp;152 and either &amp;163 or 211. A statistics class such as MATH&amp; 146 or 211 is highly recommended for all medical schools.</p>
<p>Pre-Major Requirements (15-21 Credits)</p>	<p>Select any <b>two</b> biology, chemistry, or physics sequences from the list below to complete the AS degree. Medical schools require all three sequences; you will take the remaining sequence after you transfer to university. Biology: BIOL&amp; 211 (A), 212 (W,S), 213 (S,U) Algebra-based Physics: PHYS&amp; 114 (F), 115 (W), 116 (S) Calculus-based Physics: PHYS&amp; 221 (F,W), 222 (W,S,U), 223 (W,S) Chemistry: CHEM&amp; 241/271 (F,W), 242/272 (W,S), 243/273 (S)</p>
<p>Electives –Biochemistry</p>	<p><i>These courses are not required for the AS-T degree, but biochemistry is necessary to prepare for taking the MCAT exam and medical school curriculum. Most students take biochemistry at the university after transfer.</i> Chemistry: CHEM 255 (W – online), 256 (S – online)</p>

F=Fall, W=Winter, S=Spring, U=Summer, A=All– indicates quarter(s) in which class is offered.

**More information about programs in Medicine**

U.S. medical schools require a Bachelor’s degree for admission. Provided students complete the required prerequisites, medical schools allow students to study any academic major for admissions. Students are encouraged to choose a major which they find of value and interest whether or not they go to medical school.

Medical schools look for personal attributes, e.g., a breath of interests, perseverance, curiosity, integrity, responsibility, communication skills and multicultural understanding and skills. Pre-med students should develop a broad understanding of the U.S. health care system and volunteer or work in the health care field. The admission process for medical school takes a full year. For more information:

- [www.aamc.org](http://www.aamc.org) and [www.aacom.org](http://www.aacom.org)

**University of Washington - Seattle**

M.D. – Medical Doctor

Course requirements: 6 quarters of Social Science or Humanities; 9 quarters of Chemistry and Biology; and 3 quarters of Algebra or Calculus based Physics. More info at <http://www.uwmedicine.org/education/md-program/admissions/applicants>. Applicants must be U.S. citizens or permanent residents; preference is given to Washington, Wyoming, Alaska, Montana and Idaho residents.

**Washington State University – Spokane**

M.D. – Medical Doctor

Washington State University has started a new medical school in Spokane. Course requirements: 12 quarter credits of biology with lab, 6 quarter credits of organic chemistry with lab, 6 quarter credits of physics with lab. More info at <https://medicine.wsu.edu>.

**Pacific Northwest University of the Health Sciences – Yakima**

D.O. Doctor of Osteopathic Medicine

Course requirements: 9 credits of English composition and literature; 12 credits of general chemistry; 12 credits of organic chemistry; 12 credits of physics; 18 credits of biological sciences. More info at <http://www.pnwu.edu/prospective-students/admissions/>

**\*\* This unofficial guide is intended to support you as you prepare for your major. Please consult with an advisor and your chosen four-year school(s), as program and admissions requirements vary and may change without notice.**
